

# Intro to Arduino

| and straw rockets! |

January 13<sup>th</sup>, 2021

# Agenda

01

Install Arduino

Install necessary software

02

Go over box

Go over box materials

---

03

Play with Arduino

Blink some lights!

04

Straw Rockets

Blo

01

Download Arduino

<https://www.arduino.cc/en/software>

Please pay attention!! :]

# Downloads

## Arduino IDE 1.8.13

The open-source Arduino Software (IDE) makes it easy to write code and upload it to the board. This software can be used with any Arduino board.

Refer to the [Getting Started](#) page for Installation instructions.

### SOURCE CODE

Active development of the Arduino software is [hosted by GitHub](#). See the instructions for [building the code](#). Latest release source code archives are available [here](#). The archives are PGP-signed so they can be verified using [this](#) gpg key.

### DOWNLOAD OPTIONS

**Windows** Win 7 and newer

**Windows** ZIP file

**Windows app** Win 8.1 or 10

**Linux** 32 bits

**Linux** 64 bits

**Linux** ARM 32 bits

**Linux** ARM 64 bits

**Mac OS X** 10.10 or newer

[Release Notes](#)

02

Talk about box stuff

Get your box

○

- Blue USB cable
- 3 wires
- Breadboard
- Arduino (the foil wrapped thing)
- Blue servo motor
- 3 assorted LEDs and 3 resistors
- Googly eyes
- Assorted candy

○

03

LED Blink

Please pay attention (again)!! :]

○

- LEDs have positive (LONG) and negative (SHORT) ends.
- Usually, a resistor is used so the LED doesn't get fried.

○

○

- You plug things into breadboards
- The two horizontal strips are connected.
- Vertical strips are connected.

○

04

## Straw Rocket

Blast (blow) off!

# Things to try

## Different fin shapes

Bigger, smaller, pointier,  
lighter?

## Change the rocket body

More/less paper, pointier  
nose?

## BLOW HARDER

But spitting in your  
rocket will make it soggy
